

SOUND ADVICE

A black and white photograph showing a close-up of a motorcycle's rear end. The focus is on the dual chrome exhaust pipes that exit the rear wheel area. Above the pipes, the rear suspension, including a shock absorber and a coil spring, is visible. The rear wheel with its spokes and a portion of the tire are also in the frame. The text 'SOUND ADVICE' is overlaid in large, bold, white letters on the left side of the image.

Not everyone enjoys the sound of loud pipes. Be considerate of others, especially in quiet neighborhoods and at night. Then we can hear all the good things people say about the sport.
